The bandits had followed the bus flight Wednesday. It will soar to the same height, which is one degree the same height, which is one degree above the previous maximum for this year, attained on the last day of June, when it takes off from the lower regions of the thermometer today, the weather authority believes. Wednesday's low was 72 degrees and probably will set the starting point for today's fluctuations of the heat indicator.

With all the glory attained in breaking the maximum temperature

With all the glory attained in breaking the maximum temperature record for the year, Wednesday's high mark fell far short of the record for the month of September, which was set in 1925 with the registration of 1922 degrees on the thermometer. There has been a trend toward warm Septembers during recent years, the weatherman remarked. The record set Wednesday was exceeded in 1921 and 1925, but not previous to that except as far back as 1889. September of 1925 had the highest average of any month known in Atlanta, while to date the temperature this month is more than five points above normal for September.

Tokyo, September 15 .- (P) - (Thursday.) -The projected flight of the today held up a Cleveland-Akron bus American monoplane Pride of Detroit tour was called off here today by its co-pilots, Edward F. Schlee and Walter S. Brock.

In addition to the cablegram from his children, Schlee received one from a friend declaring that threats had been made against the Schlee family and factory if he attempted the suicidal hop. Decision Made.

J. V. Walker, Tokyo representative J. V. Walker, Tokyo representative of the flight, and the two aviators held a lengthy conference in which I Walker pointed out the hazards of a trans-Pacific flight, insisting there was the utmost improbability of success. Even if they located the Midway islands, which extend only a few feet above the water and have only a few square miles of area, the fliers still would have to wait for fuel and make two long hops, to Honolulu and to San Francisco, it was pointed out by Walker.

It is understood some of the cable-grams urging the flight to be called off

grams urging the flight to be called off were from high American officials.

Announcement that the flight had been called off came suddenly and followed the repeated declaration yesterday that the flight would be undertaken

Brock and Schlee immediately cabled their families that their flight had been discontinued. They also called in tailors and ordered them to make "hurry-up" clothes for them, their only suits having been purchased in Calcutta and are suitable only for tropical wear. Both men are wearing borrowed suits and neckties.

Before the decision to call off the flight the Japanese navy had considered sending out their destroyers toward Midway to assist the fliers, although believing the flight suicidal. The fliers have no plans previous to their sailing Saturday.

Land at Tokyo.

The decision to end the flight of the Pride of Detroit at Tokyo brings to an end one of the most successful long-distance flights ever made. Brock and Schlee have flown 12.275 miles since they left Harbor Grace, N. F., on August 27. Their only serious difficulty was encountered in Japan, near Omura, where they were twice forced down by bad weather. They arrived here in good health and good spirits. The plane was in good condition and they were still determined to make the attempt to fly to Midway islands, 2.480 miles from here.

The advice the fliers received was all against tackling the Pacific leg of the trip. Hundreds of cablegrams awaited them here at the American embassy, pleading with them to give up the flight at Tokyo. The opinion of government and private aviation authorities here was against the flight, owing to the difficulty of locating the Midway islands and landing if they found them.

The fliers realized the possibility of missing the islands and said they could carry gasoline enough to reach Hawaii if they failed to locate the Midways.

DECATUR NEGRESS GETS PRISON TERM IN STABBING CASE

Decatur, Ga., September 14 .- (Spebial)-Mattie Betts, an 18-year-old negro girl tried in superior court here on a charge of having killed another negro, Frank Anderson, was convicted today and given a sentence of from five to ten years in the penitentiary.

The girl was charged with having stabbed Anderson to death at her home here about two months ago, in the midst of a quarrel between the

pair.
P. C. Humphrey, a white man of the Redan section, charged with a statutory offence sgainst his daughter, was convicted and sentenced to 10 years in the penitentiary.

A special term of court will be held in October it was stated today to take up cases not tried at this term of court. Judge John D. Humphries is presiding and the cases on the criminal docket are being taken up this week.

If Alertox Fails in High Blood Pressure Call In A Doctor

High blood pressure is both functional and organic, more often caused by over-eating and faulty elimination, and sometimes by mental strain. In either case, this new and pleasant-to-take preparation, known as "Alertox," through a process of elimination, not only thoroughly cleanses the system of its impurities, but tends to reduce the pressure in the veins and arteries by carrying out, through the alimentary tract, that excess water content in the blood which ordinarily is secreted through the sweat glands.

After the first dose or two of Alertox you will note a decided improve-ment, not only in reducing blood pressure, but also in your general health, because Alertox is guaranteed

health, because Alertox is guaranteed to remove, in one action, more poison bile from the system than any other known formula, leaving you buoyant. Vizacious and alert, mentally and physically.

Alertox also alkalines the system and thoroughly cleanses it of the poisons that cause auto-intoxication. Get a bottle from your druggist, and if you are not satisfied after taking one dose, get your money back. If your druggist cannot supply Alertox, sent direct upon receipt of price, 60c. WRESTLING WTH THE SURPLUS

The surest thing we know is that there will be in congress this coming winter a fierce and prolonged struggle over the dispersion of the \$650,000,000 surplus in the national treasury.

That much pecuniary pie in the government cupboard is whetting the bottom of the list. the appetite of every member in both the senate and the house, and each one of them knows absolutely what he and his constituents could do with a large slice of the delect-

able dish. Secretary Mellon, who, apart fom his politics, is the most expert and astute secretary the national treasury has ever had, is firmly wedded to the fiscal wisdom of applying the greatly major part of that surplus to the retirement of so much of the public debt as the public can be made or persuaded to relinquish for payment, He is convinced that the public will be better eased of taxation by reducing interest payments than by almost inappreciable income tax reductions. In that view he has the support of many of the greater financiers and

economists of the country. Opposed to that policy are those congressmen who understand popknow that the mass voters always listen more avidly and sympathetically to howls against taxes than to any other order of political arms now for "tax reductions" and can be depended upon to make the chambers roar with such demands.

The farm relievers are also embattled to devote several hundreds of millions of the surplus to "re- pelled to take quinine. Between volving funds," cooperative market- school tablets and quinine tablets ing schemes, and loan devices to life is a sorry one for the kids. again on easy street.

Then come to the front the tax experts of the several states who can see no greater good to be gotten for the people than the aboliten for the people than the aboli-tion of all federal inheritance taxes for reelection, and the work on the and the devolution of all taxes upon and the devolution of all taxes upon building is finished, he can enjoy bearing parachutes were made, to be the estates of decedents to the state treasuries.

Following all those are the flood relief advocates, who seem to have the most pressing and appealing case that will be before congress. Not to be forgotten, because they will refuse to be silent and quiet, are the naval expansion, and national defense, and public buildings.

THE BURDEN OF BEGGARY.

Many complaints are registered with The Constitution against the increasing infestation of the city streets with mendicants asking alms of every passerby.

Atlanta seems to have become real "beggars' paradise" and they are congregating here in apparently greater numbers almost daily. Saturday evening last six of them were tin-cupping between The Constitution office and the Masonic temple; and Wednesday morning four were panhandling on Broad street, between Marietta and Alabama streets. The truth is many floggings are not reported. The victims are frequently unwilling to stand the publicity. The cowardly hoodlums who are guilty of the crimes are frequently protected by "fraternity feeling" in the communities in which they live.

The attorney general of Alabama is determined to put a stop to mob violence if he can do so, and in this he is to be commended.

Alabama has made a good record in mob convictions, although in one county the court record stands as a stigma and will until the law is vindicated.

What is described as " a successful attempt to tow an aeroplane" has just been made in Germany-the it just been made in Germany—the "tug" aeroplane hauled behind it a "light sports model glider" from Kassell to Frankfort, reports the Manchester Guardian. "Further trials are to take place." we are told, "the definite aim of the promoters of the experiment being the towing of a string of glider transports, perhaps up to half a dozen, each accommodating from six to eight persons." The leading aeroplane which actually does the flying would have the appearance, one supposes, of an old-fashioned kite with its "tail" of twisted pieces of paper, and anyone who has ever flown which the component parts of that "tail" get banged along the ground as the kite itself is hauled down to earth, will think not twice but two hundred times before embarking for a trip in "a string of glider trans-ports." One can hardly conceive any more suitable candidates for a suicide club than the "six or eight persons" the last transport at the end of e procession. The odds against a safe landing must be millions to one

Are the Lawyers of Georgia Equal to the Demand for Legal Reforms?

Most men who are not engaged in "shyster lawyering," through observa-

tion and frequent experiences, have reached the opinion that our Georgia legal system is among the most ar-chaic and inefficient that exist in our American states. That it needs radi-cal reformation is generally declared.

No Sign of That Blessing.

But there is no sign that any such blessing will come to the state very soon. A proposal introduced into the recent session of the general assembly to have a survey of the system by some of the ablest legal authorities in Georgia, was kicked around like Champ Clark's hound dog and finally thrown down the capitol sewer. Those lawyers in the legislature did not want any court reforms in Georgia and refused to take a single step in that direction. The present ancient, ragged and obstructionist sys-

tem suits them and they mean to keep it.

The fact seems to be that we Georgia people are very much in favor of plenty of law-entanglements over our fighting grounds, but we are not particularly stuck on the idea of "fiat justitia, ruat soelum." In other words, getting "justice" is a secondary consideration, when it isn't the third, or the last.

None of us knows when a law may reach out and yank us into court— either for bootlegging, possessing con-traband hooch, or spitting on the sidewalk—and hence we want as many ways available as possible to tire out the court and beat the law. Any at-tempt, therefore, to make justice quick and certain is most unwelcome.

Reasons for Delays of Justice Recently the Yale law school made a formal survey of reasons for the de-lays of justice in the average courts of the nation. Among their findings

were these reasons, namely: Certain rules of technical pleadings, having nothing on earth to do with the actual incidents of the case, but endant can frequently and unduly estpone the reaching of an issue for

The landing was accomplished by the light of bonfires, gasoline torches and fuses. RADIO COMMITTEE TO DECIDE CONTEST

In the opinion of the court, written by Judge Marcus Beck, it was held that the provision preventing negro barbers from waiting on white children was contrary to both the state and federal constitutions. The contention that it was designed to prevent the spread of contagious disease was unsound, according to Judge Beck, because if such could be upheld as against barbers it would also be true of negro nurses, negro cooks and negro servants of all kinds. This ordinance also showed no regard for the wishes of the white customers them selves, in the opinion of the court.

The judge held in regard to the closing ordinance that the barber trade is not an obnoxious trade and that early closing hours are not needed for barber shops, and that such closing hours need not be fixed for them as they are fixed for poolrooms, pawn shops and some other lines of business.

Cleveland, O., Aug. 28, 1927 .-"I have been a private nurse for 20 years and am on the go all the time, both in private homes and hospitals. For the last seven years I have always carried in my kit a bottle of Bell-Ans as I have always found them very useful as well as effective. And every place I have used them you can rest assured there is a bottle in that home now.

In July I was called to a very small hospital for an old man. When I arrived the patient was suffering with nausea and greatly suffering from gas and it was crowding the heart. The case looked hopeless. I began giving Bell-Ans and in less than an hour my patient was sleeping and is now well and working. But every day he still takes his Bell-Ans. All that I have ever used were my own but I know it to be a fact they have been the means of saving many a life. Wherever I have used them they are now a house-

Goodyear Balloonists Tell Story of Endurance Flight

Noted balloonists who broke America's balloon record by more than two hours are pictured above, with the radio outfit and other instruments which were devised by themselves for use in the Gordon Bennett balloon contest in which they won second prize by traversing a distance of approximately 680 miles after remaining in the air for 58 hours and 53 minutes. They are W. W. Morton (lett), noted balloonist, and W. T. Van Orman, winner of the 1926 Gordon Bennett trophy.

With a new balloon endurance record to be added to their list of achievements in aeronautic contests, W. T. Washington, September 14.—(P)— Breaking silence on the presidential political situation, Secretary. Mellon let it be known today that he is not supporting any particular candidate at this time, although personally he now favors Charles E. Hughes, his former cabinet associate, for the re-publican nomination.

On behalf of the treasury secre-

tary, who wields a powerful in-fluence in the republican organiza-tion in Pennsylvania, it was stated that while he now leans toward Mr. Hughes it does not follow that he would support the former secretary of state should the latter declare him-self a candidate.

Victim of Auto Accident

Culloden, Ga., September 14.—(Special.)—Euneral services of W. L. Wilson, 49, who was killed at Hampton Tuesday night in an automobile wreek, will be held here Thursday morning at 10:30 o'clock from the Missionary Baptist church.

Mr. Wilson is survived by his wife, four children and stepchildren, his parents, two brothers and live sisters.

There are many people suffering from chrynic catarrh who would like to know how they can stop catching cold after cold. They realize that sooner or later this may leal to deafness and other serious troubles.

Dr. Blosser, for years a specialist in catarrh, was the discoverer of a pleasant, direct method that can be used by women and children as well as men. His remedy is made from medicinal herbs, flowers and berries which you smoke in a small pipe or cigarette, and inhale the vapor into the air passages of the head, nose, throat and lungs, carrying medicine where sprays, douches and salves cannot possibly reach. It contains no cubebs, tobacco or habit-forming drugs.

Dr. Blosser's Remedy is effective in all forms of colds, catarrh, catarrh.

Settles Question.

The overwhelming victory of the A. A. C. with Holleman was not pushed and it index of the superiority of the team, though the Daytona Beach team played the part of good loser throughout. They were betting on Sutherland, their star, and he flashed forth in both of his events by taking first in the 50-yard and 100-yard free style events, but the combination of Holleman, Harris, Baylis and Young was a bit too much for the boom state athletes. While a crowd of more than 300 persons watched, the invalence took the lead at the end of the first event when Sutherland and Frazer took first and third in the 50-yard event and Mc. Kinstry swam second.

That lead was short-lived, however, when "Red" Holleman walked away with the 440-yard swim and Gene Baylis came second, giving the visitors but one point when Morris, a hald-topped gentleman of middle age, came in third.

COPS SALLY LOOP FLAG

Charlotte, N. C., September 14 .-(A)-Eight teams in the South Atlantic Association league engaged in final tilts this afternoon to ring down the 1927 curtain and bring to a close a season of blasted hopes, development of considerable "big-timber" material

The Daytona Beach team came all the way from Florida to settle this argument and, much to their sorrow, they return today to Florida with 21 points against 47 for the A. A. C.

Now the time is ripe for the entry of other sectional teams, and the A. A. C. is ready to meet all comers in the argument of swimming ability. The first foe has come and fallen and the stage is set for the second tragedy of visitors.

Without the aid of Dave Young, national champion in the back-stroke, the A. A. C. was a bit doubtful of the outcome of this race, but Gene Baylis set about to demonstrate that Dave is not necessary to victory by taking first place in the closest race to the argument of swimming ability. KENNETH THRASH.

KENNETH THRASH.

This stocky, sturidly built youngster of 21 years, or thereabouts, is Kenneth Thrash—who, strange to relate, in two years on the varsity squad has not yet acquired a nickname. Thrash is a tackle by profession and is staging a merry battle with Coot Watkins and Frank Spear, a freshman pair, for the position left open by graduation of Mack Tharpe last June.

Thrash stands five feet 11 inches when he's feeling well, and his 185 pounds are well distributed. Bill Fincher says he shows fight and should develop into a good linesman. He prepped at Florence (S. C.) High school, playing tackle there for four years. His position on the varsity squad for the past two years has been in the capacity of reserve tackle.

Harrisburg Wins Deciding Game; 7-2

Norfolk, Va., September 14.—(P)—
Third Baseman Hughes, of the Harrisburg, Pa., team, made four hits, stole four bases, including home, and otherwise with his brilliant fielding materially alded his team in winning the third and decisive game here today in the New York-Pennsylvania league, champions' post-series with the Portsmouth Truckers, Virginia league pennant winners, by the score of 7-2. Pitcher Brame weakened in the ninth after holding the Truckers scoreless up to that time and was replaced by Head.

Greenville, winner of the flag, will league clubs is still a secret, but R. J. did bring back a trophy.

ing an institution of higher learning back in the Wolverine state Nap Rucker was helping to hurl the Brooklyn Dodgers to a National league pennant and subsequently pitched for the losers in the world series of

The trophy in the hands of Rell Jackson Spiller is a baseball bearing the name of Nap Rucker and presented to the Cracker magnate by Steve McKeever, stockholder in the Brook-lyn club. The ball was the last one pitched by Nap Rucker in the series of 1316.

Consider the Yankees.

Now that the Yankees have made it another "next year" for Connie Mack in the American league, the only thing left is to wonder just how the Yanks will stack up with the National league pennant winner.

There are some who say that Miller Huggins has the great-

There are some who say that Miller Huggins has the greatest ball team ever assembled. And then there are some that don't. One thing is as apparent as a black eye—the Yankees certainly have one of the greatest offensive teams ever listed on the payroll of any one ball club.

You Gehrig may not be able to hit as many homes runs in one season as the estimable and portly Mr. Ruth, but right now he is swatting along at a rate of .386, which is among the best in the American. The Babe is clouting at a rate of something like .356. Then there's "Poosh'em-op" Tony Lazzerri, the walloping wop. Tony, following Ruth and Gehrig in the batting order, has wrecked the beautiful dream of many an American league pitcher with his heavy clouting. And the other members of the team are hitting lustily and loudly.

Diegel and Mike Brady drepped out, overcome by par and the sun.
Farrell's eight victories this year are: Metropolitan open, 296: Wheeling, open, 146, 36 holes; Shawnee open, 279; eastern open, 285; Philadelphia open, 292; Pennsylvania open, 295; Chi-castern open, 285.

The prize winners dividing \$3,100 in order of their tinish were: John Farrell. New York, 285.

Al Espinosa. Chicago, 287.

Machonald Smith, New York, 290.
Tommy Armour, Washington, 293.
Jock Hutchlson, Chicago, 293.
Jock Hutchlson, Chicago, 295.
Emmet French, Southern Pines, N. C., 298.

The Yankees should be 15 to 20 per cent stronger than they were last year. For one thing, there's Wilcey Moore, the 30-year-old roosie and champion relief pitcher of the universe. Then three reasons right in a row-Gehrig, Lazzerri and Koenig. This trio received its world's series baptism of fire last year against the Cardinals and made some grievous mistakes— but not so this year, Oscar; not so. Their play atield has improved vastly and with added experience they will play much better ! aseball.

It would certainly seem that Mr. Miller Huggins' fence-busting Yankees are in a good position to give any champion of the National league a hard race for first money.

JONES' RECORD

tenth and until Farrell finished with a birdie three on the 430-yard 18th by holing a 25-foot putt, the outcome was in doubt.

Jock Hutchison, formerly British open champion, was next with 295 while Emmet French got 297.

The field was virtually the same as the national open, and the more recent western open, except for Bobby Jones and Walter Hagen. The pace was so fast despite record heat that such players as Bill Mehlhorn. Leo Diegel and Mike Brady drepped out, overcome by par and the sun.

New Orleans after today's games held a three and a half game lead over Birmingham with the Pelicans still to play five and the Barons three games, before the curtain is drawn Sunday on the Southern association's pennant scramble. One more victory for New Orleans, even should they lose all of the other four and Birmingham win its remaining three games, would give the Pelicans a count of 92 won and 61 lost, and Birmingham with all remaining games in the won column, 92 won and 62 lost—a margin of half a game for the Gilbert crew.

With slow arching returns, perfectly placed, the stolid Lacoste allowed Harada to beat himself on errors.

Manuel Alonzo of Philadelphia, also reached the fourth round, but only after a furious five-set battle with young John Van Byn of Princeton. Scores were 5-7, 3-6, 6-1, 6-4, 6-0.

After losing nine straight games and the first two sets, the fiery Spaniard came back with a great winning streak of his own which evened the count at two sets all and swept the deciding one.

Birmingham Bows in Third Game With Olson Hurling Airtight Ball.

BY WHITNER CARY. Whatever lingering hopes the fans of Birmingham may have enter tained as to the Barons winning the Southern league pennant for 1927 were reduced to almost zero Wednesday afternoon when the Atlanta Crackers, playing as if they were a first division club, sent the harpoon of defeat into the visiting flag hunting aggregation from Alabama for the third time in three days. The score was 6 to 1.

As a result of this victory the one chance for Birmingha mto cop the rag is for the Barons to take their three remaining games and for New Orleans to lose the five contests still on its schedule.

From the manner in which the Barons went through that game at Spiller's field Wednesday and the absence of pep that they have shown in the entire series makes one wonder how the much-vaunted Birmingham team is resting in second place. From their play of the last three days the Barons have all the earmarks of a second division club.

No Fighting Spirit.

Mobile, Ala., Septembed 14.—New Orleans defeated Mobile here today, 2 to 0. because the locals were unable to do any consistent hitting off Dave Danforth, the visiting hurler. Oldham, who pitched for Mobile, gave up less hits than Danforth. Williams were costly. Whitney secured two for the four hits that New Orleans registered.

There was an absence of fight and a seeming feeling of 1 st hope that has been present all week with the has been present all week with the visiting team. At no time was it in greater evidence than during the nine innings of Wednesday's affair. Listlessness such as one might expect to find in the ranks of a seventh or eighth place club seemed to envelop the whole Baron team.

Doug Wycoff, four-letter man at Tech and one of the best of Tech's numerous football players, will take another flier in pro-fessional football this year. Ike Williams, a teammate of Doug's, Williams, a teammate of Doug's, was present at the practice out on the flats Wednesday afternoon and said that he had received a letter from Doug, in which the latter stated that he had signed a contract to play with the New York Giants, one of C. C. Pyle's teams, this fall. Doug tried pro football last year, along with numerous other southern grid stars, playing with the Newark team, headed by Harry Hansen, former coach at Tech. Doug made good on the team, playing his old position—fullback, and should have a big year with the Giants this season.

BETWEEN NINE AND TWELVE

For some reason which we cannot explain, the majority of our custom ers call on us for tires during the afternoons and, although we have a full sales force, there are times when slight waits and delays are unavoidable. We cannot take as much time with a customer as we would like and as he would like.

Our mornings are not so rushed, usually, and we would suggest that those who are in position to do so, make their purchases between nine and twelve, which will enable them to take their time to shop leisurely and talk tires with us.

WE THANK YOU!

Captains George and Dening in the forward line, gave the cup defenders a sensational battle, but it was an unbill and unsuccessful fight after Hitchcock's brilliant start.

The match was far from the rout which marked the first match last Saturday. Through the last seven chukkers, in fact, the British four, carrying the attack to their opponents at every turn, played the Americans to a standstill. Hitchcock got loose only at intervals after the opening period. He missed numerous shots by close margins while the British, with George and Dening doing some nice hitting, persistently threatened the American goal.

They Wouldn't Believe By ROY VICKERS.

eon Connie Elmore, Donald's fiancee her friend Olive Weston that Donald stands a chance of inheriting a half a mill the estate of old Harrowby, a friend of Donald's father.

Olive and Connie share a flat in London. Olive is secretly in love with Donald, but serely pleased at Connie's good fortune in winning him.

Sandle and Querk, solicitors handling the Harrowby estate, are crooked and plot to cheat Donald Brierly of the fortune by having a spurious heir appear whose claim is prior to Donald's. In the midst of the plotting Augustus Brierly, Donald's father, presumed to have died when the Titanic sunk, calls on Sandle. Querk suggests to Sandle that he invite Brierly to Harrowby house and there with the assistance of Querk's clerk, dispose of Brierly.

Connie decides to visit her old nurse, who is now caretaker of Harrowby house Mrs. Jones is out, but Connie finds the key and lets herself in to wait for her. She hears strange noises in the library and going to investigate she sees Sandle and another man kill Mr. Brierly, whom she recognizes from his portrait. Rushing out of the house Connic stumbles into Querk. While telling her story Querk pushes the bell and sends a signal to the murderers. Connie sees a policeman and calling him the three proceed to the library, and Connie asks Querk to open the secret panel in the wall where she had seen the man place the body. It is empty. Querk intimates that she imagined the scene, and in exasperation Connie goes to see Olive, who believes her story.

Querk requests Sandle to come to the superintendent's office and he presents his alibi which the police officer accepts. The two lawyers proceed to Wode's office, where old man Turle and his son, the spurious heirs, await them. The old man dies just after they walk into the office, and Sandle and Querk leave by the back door.

The next morning Connie calls on Querk and meets young Jones in his office. She ognizes him as her old nurse's son, but does not know that he has been posing as

Exquisite beauty featured the wedding of Miss Estelle Lindsey and Robert Edward Hodgson, which took place Wednesday afternoon at 5:30 o'clock at the All Saints' Episcopal church, with the Rev. Dr. W. W. Memminger, rector of the church, officiating. Preceding the marriage service, William E. Arnaud played softly on the organ "At Dawning" and "I Love You Truly."

The ushers included James C. Williams, Frank S. Wise, of Jacksonville, Fla., and Tillman G. Williams, of Baltimore, Md.

The junior bridesmaid, Miss Mary Lee Williams, of Baltimore, Md., niece of the bride, entered first. She wore a dainty frock of flesh-colored georgetic crepe adorned on the left shoulder by a bouquet of narrow flesh-colored satin ribbon, which fell in a graceful shower to the hemline of the short skirt. She carried a miniature bouquet of flowers in the pastes shades.

Miss Venice Mayson, maid of honor, entered alone preceding the bride. She wore an attractive costume of magnolia brown georgetic crepe compined with shadow velvet in a match.

ANNUAL PARADE Will Appear at the Capitol

Grand Rapids, Mich., September 14.

(P)—The annual parade of the Grand Army of the Republic occupied the veterans of the civil war here for their sixty-first annual encampment. Over a route a mile long, much of it a wearisome ascent of Monroe avenue, the march provided a test for limbs and bodies that long ago lost much of their vigor.

All of the veterans, perhaps, were slow of foot and scant of breath; not one, however, but was strong of spirit, determined to cover every foot of the path, and once more pass in review.

It didn't require much time to put the thing together for the only bat-teries we had to fool with were the "C" batteries. Repression teries we had to fool with were the "C" batteries. Berry had sent us an Abox to take the place of the old acidy automobile battery we were using and a Webster "B" eliminator to replace our old dry "B" batteries. Abox to take the place of the old acidy automobile battery we were using and a Webster "B" eliminator to replace our old dry "B" batteries. The wires leading from the Fada Special were all tagged so a fellow could not possibly go wrong, even if he had wanted to.

It seems to the Dial Twister that the ingenuity displayed by radio set manufacturers is nothing short of marvelous when it comes to colored wires. Each wire in the cable leading from the set to the batteries in addition to being tagged for its destination, had a separate and distinct color.

The next thing we know these manufacturers will be advertising fool-proof radio sets. We have played with radio for almost five years and have watched it develop with giant strides yet we have never experienced the thrill that trickled down our spine that night, way back there, when we dialed our first station, KDKA, of Pittsburgh, on a little three-tube set we had labored over and built from the ground up, so to speak, and heard the proving the proving the ground up, so to speak, and heard the proving the provi

SPECIALTIES HUB OF CURB TRADING

New York, September 14 .- (P)-Transactions in the curb market today were concentrated on a variety of specialties, many of which were driven upward to new levels, not all, however, being able to hold their major gains in the profit-taking operations in

late dealings.
Conspicuous among the most vibrant stocks were Realty Associates of Brooklyn which closed 16 points net higher at 311 and Pacific Lighting corporation, which soared 215 points on a small turnover to 590. This company recently declared a stock dividend of 900 per cent. Active demand for Royal Typewriter shares sent them 10 points net higher, Cuban Tobacco Certificates moved up nearly 6 points, General Fireproofing closed 6 points higher, Bancitaly 4 1-2 and Johns-Manville 3 1-4.

New York, September 14.—Steel common, General Motors, American Telephone, Harvester, DuPont and other leading shares climbed to new high records in a very excited and active stock market. For the first hour the turnover was 924,000 shares. The only time more than a million shares have been traded in during the first hour was on April 30, 1901, when the turnover was 1,001,000 shares. That was the big bull market leading up to the Northern Pacific corner of May 9, 1901.

New York, September 14.—(R)—
The buying movement which developed in the cotton market yesterday was resumed today with a further sharp recovery in prices. December sold up to 22.84, or 64 points above the closing quotation of Tuesday and 132 points above the low level of Tuesday morning. It closed at 22.67, with the general market closing steady at net advances of 47 to 60 points.

The market, opening firm at an advance of 13 to 19 points, soon showed net gains of 28 to 34 points on buying apparently influenced by relatively firm Liverpool cables and fears of unsettled weather in the south. Reactions set in under heavy realizing by recent buyers and southern selling October eased off from 22.20 to 21.81 and March from 22.75 to 22.35, making net declines of about 6 to 12 points.

Second hauds continued to offer part of the yardage supply coming to them A fair number of small to larger combed yarn cotton goods have been in carends and only occasional sales were made in the local market. With raw silk levels unchanged here and in Yokohama, better volume was reported in the finished goods branch.

Sugar.

New York, September 14.—Raw sugar was not very active today, but the undertone was firm, with offerings light and prices fractionally higher. Cuban now quoted at 4.83 duty paid. The only sale reported was 20.000 bags of Cuban to an output refiner for September shipment, at 4.83.

Circulation of 71 September notices had depressing effect at the opening of the raw futures market, but they were finally stopped and after showing infilal declines of about 1 to 2 points on active positions, prices railled on covering and increased trade and Cuban support, closing at net gains of 2 to 5 points. Buying seemed to be inspired by the steadler spot market and private advices from Cuba Indicating that President Machado may make some announcement next week relative to the restriction plans. Approximate sales 50,000 tons, September closed 3.04; December 3.08; January 3.05; March 2.02; May 2.28; July 3.05; September 31.30.

Refined prices were unchanged at 5.80 to 6.00 for fine granulates but there was a better inquiry, due to the warmer weather.

NATIONAL BANK OF COMMERCE IN NEW YORK

The following has been authorized by His Excellency, Dr. Esteban Jaramillo, Minister of Finance and Public Credit of the Republic of Colombia:

Colombia, adjoining the Isthmus of Panama, and with an area greater than the combined areas of France and Germany, is the South American country nearest to the great centers of population and trade in the Eastern and Western Hemispheres. Under a stable government for over twenty years, Colombia's progress and development have been notable.

Colombia's national debt, which in 1922 was \$46,948,000, had been reduced by June 30, 1926, to \$23,407,000, a reduction of \$23,541,000, or over 50%. On completion of this financing, total national debt, both internal and external, will approximate \$46,000,000. This is equivalent to about \$6 per capita, which is among the lowest for any of the countries of the world, and compares with estimated figures for Argentina of \$109 and for Uruguay of \$125. When compared with an estimated wealth per capita of over \$750, with the volume of its foreign trade and its annual income, it can be seen that the debt of the Republic is indeed small.

This unusual situation is largely explained by the substantial annual surpluses of ordinary revenues over ordinary expenditures shown in the following table:

TOHO WINE	•	 	-										
													Revenues
1923													\$32,425,591
1924		 											32,576,680
1925													45,005,038
1926		 											54,163,088

In the years 1922 to 1926 the Republic has spent over \$57,000,000 upon railroad construction and other public works.

In addition to the surplus of ordinary revenues, the Republic has also received, under a treaty with the United States, \$25,000,000, which has been devoted entirely to public works and constructive enterprises, including \$6,000,000 initial capital for the Bank of the Republic and the Agricultural Mortgage Bank.

International trade has more than doubled from 1922 to 1926, amounting in the latter year to over \$218,000,000.

At June 30, 1927, the gold reserves of the Bank of the Republic (the bank of issue) were approximately 100% of its notes in circulation. The Colombian peso, with a gold parity of \$.9733, is at present quoted at a premium, being the only South American currency, except that of Argentina, of which this can be said.

The country has vast resources of coal, petroleum, gold, platinum, copper, iron and other minerals, and is the world's chief source of supply of emeralds. The possession of these resources, especially coal and petroleum (still largely unexploited) is of especial importance in view of the proximity of the country's ports to the

Colombia is the world's second largest coffee producer, and the largest producer of "mild" coffee, which commands a premium over Brazilian grades. Bananas, tobacco, cotton and sugar are grown, while the production of live stock is an important and growing industry.

American companies have large investments in the mining, oil, fruit and live stock industries of Colombia, total American investments there being estimated at over \$200,000,000.

In 1922 Colombia, recognizing its paramount need of an adequate, unified transportation system, enacted legislation to meet the situation, in pursuance of which thorough studies have been made with the assistance of eminent international engineers. As a result, the proceeds of this loan are to be used in accordance with a comprehensive plan for the extension and unification of existing railroad systems, for the development of port works and the deepening and canalization of rivers, as well as for the repayment of a short term loan of \$10,000,000 granted this year, the proceeds of which were used for the same purposes. The present Government-owned railroads have reported operating profits in each of the past six years, the figure increasing from less than \$900,000 in 1921 to over \$3,000,000 in 1926.

These bonds constitute the direct obligation of the Republic of Colombia, secured by its full faith and credit. The Republic agrees, among other things, that if while any bonds of the present loan are outstanding, it shall secure any obligations by a lien or charge upon any national income or revenues, the bonds of this loan shall be secured in like form, equally and ratably with such obligations.

All conversions of pesos into dollars in the foregoing have been made at parity of exchange. The Republic has agreed to make application to list these Bonds on the New York Stock Exchange.

These Bonds are offered for subscription subject to allotment. We reserve the right to reject subscriptions in whole or in part, to allot less than the amount applied for, and to close the subscription books at any time without notice. Interim receipts of National Bank of Commerce in New York will be deliverable in the first instance. Legal matters subject to approval of Messes. Sullivan & Cromwell, New York City, and, as to questions of Colombian law, of Dr. Pedro M. Carreño, Bogota, Colombia.

WHEAT CONTINUES DOWNWARD SLIDE

Chicago, September 14 .- (AP)-Notwithstanding that wheat prices averaged higher today, the increasing movement of the spring crop became movement of the spring crop became the dominant factor at the last. Fully 1,100 cars of new domestic wheat were loaded today by one railroad system, and Grand Forks, N. D., was reported as having been temporarily embargoed on account of the rush of wheat to market.

Closing quotations on wheat were nervous at the same as yesterday's finish to 1c lower, corn 1-8c to 1c up. oats at 1-4c decline to 1-8@1-4c advance and provisions showing 2c to 12c gain.

Until near the end of the day, the wheat market showed an upward trend that was associated with greattrend that was associated with greatly improved export demand, total purchases for Europe being estimated at 2,500,000 to 3,000,000 bushels. Besides, sleet and snow in Alberta province, Canada, were reported and there were predictions of frost tonight both in Alberta and Saskatchewan. Earlier advices, too, told of heavy rains causing serious delay both outling and threshing over to cutting and threshing over large areas of Canada. Selling on advances, however, was

Selling on advances, however, was an outstanding unit of the wheat market. The selling was especially conspicuous from northwestern sources. In this connection, it was pointed out that flour business was reported to be lagging, with most of the demand coming from bakers. On the other hand, friends of higher prices did considerable delivery buying of wheat, assuming that all the bear news was out, and that rallies were to be expected.

Corn values owed their strength largely to government returns from

largely to government returns from Illinois, Iowa and Missouri indicating that regardless of weather conditions considerable corn probably will not mature. Besides, rain is needed in many sections and some corn crop damage from drouth and excessive heat is noted (but were steedied by heat is noted. Oats were steadied by good cash demand reflected the firmness Provisions reflect of corn and cotton.
